ABOUT

Two diagnostics, one clear set of priorities

The Individual Leadership Diagnostic covers eight core leadership capabilities, grouped across leading yourself, leading others and leading the organisation. You answer a short set of questions and receive a personalised report highlighting your strengths and growth areas.

The Team Effectiveness Diagnostic is a parallel assessment for teams, showing collective strengths and where to focus effort to improve how the team works together.

What you will be able to do

01 Complete a confidential self-assessment across eight core leadership capabilities

02 Receive a personalised report highlighting strengths and growth areas

03 Understand a team's collective strengths with the Team Effectiveness Diagnostic

04 Identify specific, evidence-based priorities for individual or team development

Prices

- Individual Leadership Diagnostic: from £99 per person
- Team Effectiveness Diagnostic: £495 for a whole team

From £99 per person inc. VAT

The diagnostics are self-assessments scored from your answers. They guide development and are not formal psychometric assessments. They run on a separate Starbuck & Associates site with its own privacy notice.
